If you're a real estate professional, home inspector, demolition or restoration contractor I am confident you have run into these 2 common problems: asbestos and mold. These issues may affect the contract you have with the site owner and the outcome of the project. All we need to do is meet at the site so measurements and observations can be made. We are here to help you get paid!

Vermiculite attic insulation

9"X9" asbestos floor tile

Attic mold

Asbestos pipe insulation

Environmental Affairs, LLC has been assisting homeowners, general contractors, and business owners since November 2008. We are licensed State of Michigan asbestos contractors and certified mold professionals. Asbestos abatement is a regulated project and you want a company that always works within the confines of State law. We don't want to be on the wrong side of the MIOSHA-Asbestos Program so we do the job right the first time and all the time!

Since mold is not regulated in the State of Michigan you have to put your trust in the company you hire to ensure the mold is removed safely and forever. In addition, we research site conditions and determine how the mold started in the first place. If a 2nd contractor is required we will let you know.

Environmental Affairs appreciates the business relationships it has fostered over the years. Any project that results in a signed contract will result in a 2.5% reimbursement to the company or individual. A simple phone call gets us started. Let's do a couple projects then a Referral Agreement will be entered between you or your company and Environmental Affairs, LLC.

In 2014 the former manufacturer of Zonolite™ - brand vermiculite set up a trust to assist in the cost to remove this type of vermiculite insulation from homes and businesses. The trust website is www.zonoliteatticinsulation.com. Currently, the Zonolite™ Trust reimbursement total is \$4,934.72.

Bag of Zonolite™

Thank you,

Mike Piddington, PG, CMI, CMRC, CMRS,
President
